- Ma & Mi 7th
- All Augmented & Diminished

Memorize all of the Consonant & Dissonant Intervals.

SECTION TWO: “Triad Chords”

A chord is the result of 3 or more tones sounding together. A triad is a 3 note chord consisting of the intervals of a 3rd & 5th above the lowest pitch tone, (called the root). A triads name is established when analyzing all of the triads tones from it’s root note.

There are 2 consonant triads.

**CONSONANT:**

1) The Major Triad: A consonant triad consisting of a Major third and a Perfect 5th above the root.

   Example: “C Major” triad = C E G  
   1 3 5

2) The Minor Triad: A consonant triad consisting of a Minor third and a Perfect 5th above the root.

   Example: “C Minor” triad: C Eb G  
   1 b3 5
There are 2 dissonant triads.

**DISSONANT:**

3) The Augmented Triad: A dissonant triad consisting of a Major third and an Augmented 5th above the root.

Example: “C Augmented” triad = C E G#

1 3 #5

4) The Diminished Triad: A dissonant triad consisting of a Minor third and a diminished 5th above the root.

Example: “C Diminished” triad = C Eb Gb

1 b3 b5

The 4 triad types are based on the different qualities of the 3rd and 5th tones.
